Upper School Dual Credit and Advanced Placement Courses

The rigor of our Rhetoric School curriculum provides students with opportunities to learn at a high level and earn college credit while in high school. Most of our courses are taught as honors level courses.

Feedback from our graduates informed us that they were well prepared for college, and in some cases, felt like they were repeating some of what they learned in their freshman college classes. This prompted us to seek a way for students to earn dual college credit for the classes they take at Cambridge.

Our partnership with Colorado Christian University allows our own qualified teachers to submit their syllabi for approval for students to earn dual credit at CCU. Currently our students can earn up to a total of 39 college credits from their sophomore through senior years.

The Following Courses are Available for Dual Credit:

Cambridge Course	Colorado Christian University Equivalent	College Credits Earned
Honors Chemistry	Intro to Chemistry	5
Calculus	Calculus I with Recitation	4
Honors Statistics	Statistics and Their Application	3
Honors Latin IV	Latin I	3
Honors Greek I & II	Biblical Greek I	3
Honors Greek III	Biblical Greek II	3
Honors American Literature	American Literature I and II	6
Honors World Literature	Intro to Literature	3
Honors American History	American History and the Making of Modern America	6
American Government	Intro to American Politics	3

Advanced Placement Courses Currently Offered:

AP Biology | AP Chemistry | AP Calculus A/B | AP Calculus B/C

Careful review of the College Board's Advanced Placement curriculum shows close alignment with our goals for teaching and learning in our Biology, Chemistry, and Calculus courses. The emphasis on critical thinking and application of guiding principles to novel problems fits.
